

# WOW! SECURITY PORTAL

## Your key to successful diagnostics!

**The Security Portal provides you access to protected manufacturer systems.** All available vehicles whose communication or individual functions are encrypted using security algorithms or security certificates are at your disposal.

The Security Portal is accessed via the WOW! LOOQIT diagnostic software.

**Access and functionality are only possible with an active license.**

After a single registration and authentication in the Security Portal, all vehicles of the available manufacturers can be accessed. We take care of the communication with the manufacturers and the request for access certificates.

**The WOW! diagnostic license (Expert / WSD 299 / WSD 300) includes the following vehicle brands that can be activated in the Security Portal without additional costs:**

BASIC SECURITY ACCESS		
included in active WOW! diagnostic license		
Vehicle brand	VCI LOOQER	VCI SNOOPER+
Alfa Romeo	✓	✓
Audi	✓	✓
Cupra	✓	✓
Fiat	✓	✓
Jeep	✓	✓
Lancia	✓	✓
Mercedes Benz	✓	✓
Seat	✓	✓

Security Portal access for IVECO still requires an additional license for a fee.

# WOW! PREMIUM SECURITY ACCESS

## Full diagnostic power for all car professionals!

The **license for the Premium Security access** enables the activation of even more vehicle brands.

The monthly license costs also include future vehicle manufacturers that will be included into the Security Portal.
