# LOOQIT ADAS SOFTWARE PACKAGE
FOR THE CALIBRATION SYSTEM WOW! ACS CARS

Everything for the transparent diagnosis and calibration of driver assistance systems with the Snooper+ or LOOQER diagnostic interfaces.

The LOOQIT ADAS software package contains everything you need for vehicle diagnostics and the calibration of driver assistance systems:

- **OnBoard-Diagnosis** of the driver assistance systems in the vehicle
- **Read/ delete error memory and scan** of all systems including description and display of the errors.
- Extended functionality exclusively for driver assistance systems: **Data lists, Actuator test** (actuator control), **Calibration and coding a basic settings**
- **Integrated customer and vehicle management** with storage of diagnostic and test logs
- Display of the **diagnostic connector position** in the vehicle

Overview

Diagnostic software	Article number		Payment interval
	diagnostic interface **LOOQER**	diagnostic interface **Snooper+**	
LOOQIT ADAS monthly	W015 301 002	W015 000 600	monthly
LOOQIT ADAS annually	W015 312 002	W015 012 600	annually

- The WOW! LOOQER or Snooper+ diagnostic interface is required for functional diagnostics.
- **An active license ensures work with current and manufacturer-compliant data via software updates.** When working with outdated or non-compliant data, the workshop may be liable in the event of damage..
- For the static calibration of driver assistance systems, the calibration system WOW! ACS cars and matching calibration plates or mats are also required.
- **LOOQIT ADAS is available in the following countries:** Germany, Austria, Switzerland, Belgium, Czech Republic, Denmark, Finland, France, Italy, Malta, Netherlands, Romania, Spain, Norway, United Kingdom.

Did you know?

WOW! is 100 % manufacturer compliant

Your benefits of the perfect collaboration for your workshop

COMPREHENSIVE AND FLEXIBLE

The **LOOQIT ADAS software package** offers functions for static and dynamic vehicle calibration.

The **calibration system WOW! ACS cars** offers you maximum flexibility. The system can be expanded at any time with double-sided, brand-specific calibration targets.
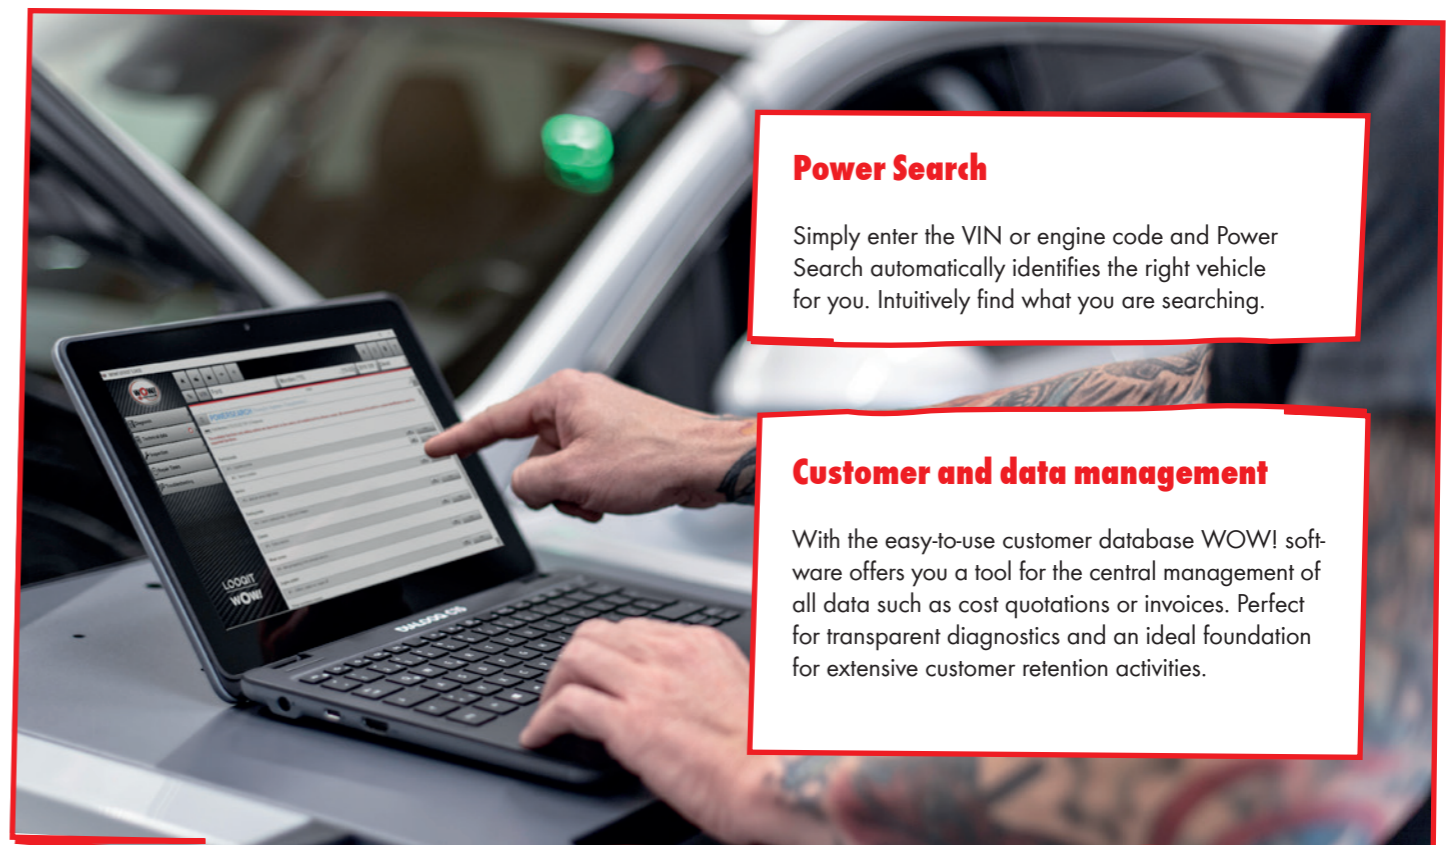

HANDY AND EASY TO USE

Due to the standardized procedure for all manufacturers, with the **LOOQIT ADAS software package,** vehicles can be calibrated quickly, easily and safely.

The **calbration system WOW! ACS cars** is designed for easy handling thanks to the lifting lever for lowering the shunting wheels, the movable calibration panel holder with secure spring mechanism (camera calibration) and the quickly adjustable laser carrier (radar calibration).

Highlight functions of the diagnostic software

Power Search

Simply enter the VIN or engine code and Power Search automatically identifies the right vehicle for you. Intuitively find what you are searching.

Customer and data management

With the easy-to-use customer database WOW! software offers you a tool for the central management of all data such as cost quotations or invoices. Perfect for transparent diagnostics and an ideal foundation for extensive customer retention activities.

Note: Active WOW! LOOQIT software licences enable diagnostics on Security Gateway protected vehicles via the use of the WOW! Security Gateway Portal. The development of the diagnostic content is market- and demand-oriented.

	diagnostic interface **LOOQER**	diagnostic interface **Snooper+**
Only available for approved countries: Germany, Austria, Switzerland, Belgium, Czech Republic, Denmark, Finland, France, Italy, Malta, Netherlands, Romania, Spain, Norway, United Kingdom

Reading and deleting the fault memory	X	X
Reading the parameters of the data lists	X **	X **
Actuator tests	X **	X **
Basic setting, coding, calibration of all supported control units in the vehicle	X **	X **
EOBD – European on-board diagnostics (OBFCM * incl. data transfer)	X **	X **
Use of Security Gateway protected functions *	X **	X **
VIN selection for vehicle identification *	X	X
Power Search – simple and intuitive search function	X	X
Power Scan – time-optimised query of all fault memories for electronic status report *	X	X
Flightrecorder – recording of all relevant data during the test drive		
Top 10 function – display of the ten most frequently used functions on the vehicle *		
Central administration of diagnostic and customer data in customer and vehicle administration	X	X
Pass-Thru J2534 – Pin switch for multiple channels *		
Print function *, export function * and save function	X	X
Power Repair* Enrichment of the error codes with additional information — Reference values		
Possible causes		
Confirmed repair instructions		
Component testing ***		
Technical service bulletins		
Circuit diagrams		
Component arrangement and testing		

* Comfort function depending on an active license. Within the contract period, WOW! customers receive every update immediately upon availability and have access to all comfort functions that are included in their license package. With an inactive license, the usage is restricted and additional information is missing. This leads to increased time investment and loss of productivity. Active licenses ensure (operational) security by keeping data and software up to date. With inactive licenses and outdated data, some information and functions cannot be accessed and vehicles cannot be diagnosed or can only be diagnosed in poor quality. You can find more information at www.wow-portal.com/diagnostics. ** Only possible in driver assistance systems. *** Available in 5 languages (EN, DE, IT, FR, SWE), otherwise shown in EN.
