SOFTWARE MODULES FOR SNOOPER+

Note: Active WOW! LOOQIT software licences enable diagnostics on Security Gateway protected vehicles via the use of the WOW! Security Gateway Portal. The development of the diagnostic content is market- and demand-oriented.

Functions / content	WSD 300²	WSD 299²	WSD 60	WTI 350	WTI 200	WTI 450	WTI 100	WTI 50	WTI 20	WHS 200
Reading and deleting the fault memory	X	X	X							
Reading the parameters of the data lists	X	X¹	X**							
Actuator tests	X	X¹	X**							
Basic setting, coding, calibration of all supported control units in the vehicle	X	X¹	X**							
EOBD – European on-board diagnostics (OBFCM * incl. data transfer)	X	X¹	X**							
Use of Security Gateway protected functions *	X	X¹	X**							
VIN selection for vehicle identification *	X	X¹	X**							
Power Search – simple and intuitive search function	X	X	X							
Power Scan – time-optimised query of all fault memories for electronic status report *	X	X¹	X							
Flightrecorder – recording of all relevant data during the test drive	X	X¹								
Top 10 function – display of the ten most frequently used functions on the vehicle *	X	X¹								
Central administration of diagnostic and customer data in customer and vehicle administration	X	X¹	X							
Print function *, export function * and save function	X	X¹	X	X	X	X	X	X	X	X
Power Repair* Reference values	X	X¹								
Possible causes	X	X¹								
Confirmed repair instructions	X	X¹								
Component testing ***	X	X¹								
Technical service bulletins	X	X¹		X						
Circuit diagrams	X	X¹		X						
Component arrangement and testing	X	X¹		X						
Wiring diagrams: engine, airbag, air conditioning, lighting, convenience systems, central locking, drive battery and many more				X	X	X				
Maintenance plans according to manufacturer's specifications				X		X	X		X	
Timing belts and V-ribbed belts				X		X	X			
Tyre pressures, wheel setting data, etc.				X		X	X			
Filling quantities, tightening torques, lubricants, etc.				X		X	X			
Pollen filter information (position, replacement, etc.)				X		X	X			
Service resets				X		X	X			
Engine management, component test and component description				X	X	X				
Pin assignments / input and output readings				X	X	X				
Information on the fuel system				X	X	X				
Manuals for air-conditioning system, airbag system and ABS				X	X	X				
Troubleshooting tables, tips and tricks				X	X	X				
Tyre pressure monitoring systems (TPMS)				X		X		X		
Electronic parking brake				X		X				
Starter and drive battery				X		X				
Indicator lights, information and warning systems	X	X¹		X		X				
Technical information, assistance and vehicle technical data										X
Provision of technical documents and information Repair instructions and wiring diagrams – brand-independent										X
Tightening torques and adjustment data										X
Service data										X

* **Comfort function depending on an active license.** Within the contract period, WOW! customers receive every update immediately upon availability and have access to all comfort functions that are included in their license package. With an inactive license, the usage is restricted and additional information is missing. This leads to increased time investment and loss of productivity. Active licenses ensure (operational) security by keeping data and software up to date. With inactive licenses and outdated data, some information and functions cannot be accessed and vehicles cannot be diagnosed or can only be diagnosed in poor quality. You can find more information at www.wow-portal.com/diagnostics. ** Only possible in driver assistance systems. *** Available in 5 languages (EN, DE, IT, FR, SWE), otherwise shown in EN.
¹ Only with valid diagnostics license. ² Availability may vary depending on country.
